EXPLORATIONS

Exploration Student Worksheet: Growth and Development

Overview

In this Exploration, you will learn about the stages of growth and development of different animals.

Questions

1. Describe the growth and development stages in the life of a pigeon.

2. How are the stages of growth and development of a butterfly different from those of an elephant?

How to Use This Exploration

1. Read the Introduction and click the **Continue** button.
2. Click on an animal to see how it grows and changes. Read the text and follow the instructions.
3. Read the outcome explanations as they appear. Record results in the data table.
4. Click the **Choose Another Animal** button to continue exploring other animals.
5. Click the **Reset** button to restart the screen.
6. Click the **Close** button to close the Exploration.

Data

In the chart below, write the names of the stages that each animal goes through in its life.

Animal	Stage 1	Stage 2	Stage 3	Stage 4
Frog				
Butterfly				
Robin				
Elephant
